Homework: Including Parents in the Process

Training Module 3
For Teachers and Administrators
Parent Engagement Program
Objectives

- **DEFINE** the role of homework
- **IDENTIFY** five key practices to help parents become more involved in homework
- **DEVELOP** parents confidence across all grade levels
- **CREATE** consistent opportunities for parents to be engaged with homework
- **ENABLE** parents to get organized and committed to working as part of a TEAM with teachers
Why is Including Parents Important?

The concept of including parents in homework can speed up a child's learning. Homework can involve parents in the school process and enhance their appreciation of education and the educator(s). It also gives them an opportunity to express positive attitudes about the value of success in school.

Define the Role of Homework

• **Practice** exercises as homework are meant to reinforce learning and help the student master specific skills.

• **Preparation** or previewing homework introduces material that will be presented in future lessons. These assignments aim to help students be prepared to learn new material when it is presented and covered in class.

Define the Role of Homework

• **Extension** homework requires students to apply skills they already have to new situations.

• **Integration** homework requires the student to apply many different skills to a single task, such as book reports, science projects or creative writing.

Five Keys to Include Parents in Homework

1. Reasonable expectations
2. Fun age-appropriate activities
3. Develop life skills
4. Communication with parents
5. Reinforce confidence and promote consistency
Key 1

Reasonable Expectations
Key 2

Fun Age-Appropriate Activities
Key 3

Develops Lifeskills
Key 4
Communicate with Parents
Key 5
Reinforce Confidence & Promote Consistency
Practice makes perfect!
Homework Resources:

• Teachers Involve Parents in Schoolwork
  http://www.csos.jhu.edu/p2000/tips/index.htm
Objectives:

• IDENTIFY common homework challenges
• IDENTIFY learning style via multiple intelligence test

Ask Questions ● Listen ● Observe ● Understand

• MAP out study habits and learn tips for success
• IDENTIFY mapping strategies for organization
Identify Common Homework Challenges
Multiple Intelligences Test

Figure out your learning style!
Learning Styles

- **Visual (spatial)**: You prefer using pictures, images, and spatial understanding.
- **Aural (auditory-musical)**: You prefer using sound and music.
- **Verbal (linguistic)**: You prefer using words, both in speech and writing.
- **Physical (kinesthetic)**: You prefer using your body, hands and sense of touch.
- **Logical (mathematical)**: You prefer using logic, reasoning and systems.
- **Social (interpersonal)**: You prefer to learn in groups or with other people.
- **Solitary (intrapersonal)**: You prefer to work alone and use self-study.
Elementary School
Eager Beavers

• **Check for understanding** - Be sure your child understands new assignments before he or she starts working on them.

• **Guide, but don't correct** - If your child needs help, offer ideas that can help them sort out the problem, but don't give them the answers.

• Build in **rewards** or **incentives** to use with children for whom "good grades" is not a sufficient reward for doing homework.
Eager Beavers

• Read everything that’s sent home — At this age, children need guidance and help with what’s required for each assignment.

• Don’t hesitate to seek out tutoring - If you find that your child is consistently struggling in a particular area. It is much better to seek help early than waiting.

• Suggest that your child take momentary breaks, especially if you find that assignments are long in length. This will help your child avoid burn-out.
Example of a Learning Style for a Spatial Eager Beaver

• Prefers fill in the blank information
• Using color coded words makes retention easier
• Flashcards, flipcharts, or props are preferred
• Use a highlighter to separate key points
• Underline or circle key words
• Encourage note taking and writing games
• Make outlines of everything

**Best test type: Diagramming, reading maps, essays, and demonstrating a process

**Worst test type: Listen and respond test

Middle School Stars

• **Study groups** are often a good strategy. Your child may benefit from studying with one or two classmates.

• Encourage your child to divide the homework assignment into "**What I can do myself**" and "**What I need help with.**"

• **Enforce** that **neatness** is important. Children often rush through assignments quickly so they can finish sooner and move on to the next thing on their agenda.
Middle School Stars

• Establish **rules** about the use of their **cell phone** during study time. This can be a major distraction; therefore, it would be wise to prohibit the use of it during homework time.

• Remind your child that **it’s ok to say no** if they are being asked to engage in extracurricular activities and forms of entertainment with their friends that may interfere with study time.

• **Keep things in perspective** and caution your child against setting goals that are too difficult to meet.
Example of a Learning Style for a *Linguistic* Middle School Star

- Use word association to remember facts and lines
- Repeats facts with eyes closed
- Prefers watching videos
- Enjoys participating in group discussions
- Use audiotapes for language practice
- Prefers reading to themselves out loud

**Best test type:** Oral exams or writing a response to a lecture they heard

**Worst test type:** Reading passages and writing answers about them in a timed test

On your mark, get set…
Go HIGH School Scholars!
High School Scholars

• Before starting homework assignments, make sure your teen has everything they need—books, paper, pencils/pens—to cut back on distractions and unnecessary breaks.

• Help your teen learn time management skills by developing a schedule and sticking to it, no matter what.

• Monitor your teen’s study habits and encourage them to study in short bursts because cramming is not the answer.

• Block out distractions (i.e. telephone calls, facebook, television).
High School Scholars

- Look out for "senioritis" - a drop in motivation and, consequently, grades, that is sometimes experienced by seniors by helping them stay motivated
- Check your teen’s schedule for appropriate classes and make sure they are on track to enhance their next step(s) after graduation
- Make sure they get plenty of rest before test days which may require the removal of electronic devices from their room
- Take advantage of free tutoring and study group sessions!
Example of a Learning Style for a Bodily-Kinesthetic High School Scholar

• Studies best in short blocks
• Learns well in lab classes
• Prefers role playing
• Enjoys studying with others
• Use memory games and flash cards to retain information
• Learns well on field trips

**Best test type: Short definitions, fill-ins and multiple choice

**Worst test type: Long test and essays
